A MESSAGE FROM PAT SAJAK...
As you can probably imagine, I love games and puzzles. It's a good thing considering what I've been fortunate enough to do for a living these last few decades. I'm very excited to be partners with Penny Press on some of my new games and puzzles and I'm thrilled to be able to give you these samples. I hope you enjoy them.

A Get-A-Letter Crossword is solved like any regular Crossword, but we help you Get A Letter! Some spaces in the grid have been coded with symbols. Each symbol stands for a different letter. Once you Get A Letter in a coded space, you'll know exactly where that letter fits throughout the puzzle everywhere you see the same symbol. Each crossword uses a different code, so use the key above the grid to keep track.

GET-A-LETTER WORD SEEK #1

Hidden in the diagram below are words that relate to each of the four categories. Find and circle each word. Fill the words you find into the appropriate boxes, in alphabetical order by word length, under each category. Some boxes have been coded with symbols. When you Get A Letter in a coded box, you can fill it into the key above the grid, and then place that letter into each corresponding coded box. Each symbol represents a different letter.

GET-A-LETTER FILL-IN #1

The entries for this puzzle are given to you, listed alphabetically according to length. Across and Down words are all mixed together, and it's your task to find their proper places in the diagram. But we help you Get-A-Letter! Some spaces in the grid have been coded with symbols. Each symbol stands for a different letter. Once you Get A Letter in a coded space, you'll know exactly where that letter fits throughout the puzzle everywhere you see the same symbol. Each puzzle uses a different code, so use the key to keep track. We have filled in one answer and placed the first coded letter in the diagram to start you off.

**Coded Sudoku #1**

Sudoku is easy to pick up, but hard to put down! Using the numbers in the diagram as your guide, fill in the rest of the boxes so that the numbers 1 to 9 appear exactly once in each row, column, and 9-box square. In this version of Sudoku, some spaces have been coded with symbols. Once you've entered a number into a coded space, you can fill that number into the corresponding coded spaces throughout the grid. Each symbol represents a different number.
