

**ARIES** (March 21-April 19): You'll fall out of love as quickly as you fall in love. Don't misinterpret what you feel for someone. Jealousy will be the enemy. It's best to back away from anyone who makes you feel bad or who doesn't treat you with respect.

**TAURUS** (April 20-May 20): Chemistry is likely to take over, leaving you few alternatives. Giving in too quickly to what someone wants from you will end in an emotional mess. Let your friendship build before you become intimately involved.

**GEMINI** (May 21-June 20): You have a right to change your mind and to have fun, but don't lead someone on while you flirt with someone else. Fickleness will be seen as an inability to make up your mind and will label you as someone who isn't marriage material.

**CANCER** (June 21-July 22): You need to change the way you look at relationships before you get involved with someone who wants to control you mentally, physically and financially. Surprise everyone by taking the first step toward living by your own rules.

**LEO** (July 23-Aug. 22): Keep things simple, above-board and mellow. Aggressive action can be expected if you hook up with someone who is overly possessive or jealous of your friendly

demeanor. Don't put up with restrictions. Move on if someone is overbearing.

**VIRGO** (Aug. 23-Sept. 22): You've got everything going for you when it comes to romance. Make your move, talk about your feelings and intentions and, most of all, ready yourself to make a commitment. Playful passion and plans for two will seal the deal.

**LIBRA** (Sept. 23-Oct. 22): Dissatisfaction with someone or a lack of opportunity in the romance department is apparent. You are going through a make it or break it period and must not waste time with someone who doesn't live up to the high standards you set.

**SCORPIO** (Oct. 23-Nov. 21): Set the stage for romance and you will mesmerize the person to whom you feel the greatest attraction. It's your passionate body language that will speak volumes about who you are and what qualities you want from a partner.

**SAGITTARIUS** (Nov. 22-Dec. 21): Play it safe when

it comes to love or you'll end up in a sticky and costly situation. An unexpected change of heart may leave you in a precarious place. Avoid an involvement with anyone who can jeopardize your position.

**CAPRICORN** (Dec. 22-Jan. 19): Question motives before you get involved with someone from a different income bracket. One of you may be in love with the possessions and status, not the person. Honesty will be required if you don't want to make a mistake.

**AQUARIUS** (Jan. 20-Feb. 18): A long-distance romance will have its ups and downs. You may want to think twice before you fall for someone who can only offer you part time love. Either make a move that will bring you closer together or plan to move on.

**PISCES** (Feb. 19-March 20): Passion plus. Someone you want to be with all the time will want to make a commitment. Sort out whatever responsibilities you both have so that you can move forward to achieve what you both ultimately want out of a loving relationship.

**TAURUS** (April 20-May 20): Take an interest course or trip that is geared toward singles and you will find someone who shares your likes and dislikes. A friendship can quickly turn into a passionate relationship if you encounter someone who shares your interests.

**GEMINI** (May 21-June 20): Protect your pocketbook. Someone may be inclined to love you for what you have, not who you are. Draw the line if you are paying for too much or if the person you are attracted to isn't offering to share equally for entertainment.

**CANCER** (June 21-July 22): You'll be drawn to someone physically but, if the mental connection isn't there, it's best to walk away. No amount of chemistry will suffice if you don't agree, have different beliefs or cultural backgrounds or lack common interests.

**LEO** (July 23-Aug. 22): You'll find it more inviting spending time with someone who cares about the same things you do. Problems with

physical relationships will lead to deception and emotional mistakes that have the potential to be costly or turn aggressive.

**VIRGO** (Aug. 23-Sept. 22): Socialize and you will meet someone who shares your beliefs and interests and is ready for a steady, long-term commitment. Getting involved in serious groups or signing up for investment seminars will lead to mingling with someone special.

**LIBRA** (Sept. 23-Oct. 22): You have to make an attitude change if you want to attract someone worthwhile. Don't live in the past or pine over someone you cannot be with. A positive, outgoing approach to love will enable you to connect with someone unique.

**SCORPIO** (Oct. 23-Nov. 21): Good fortune will come with picking the right partner. The more in sync you are with the one you choose, the further you will get in both your personal and professional lives. Don't be afraid to show your dark and mysterious side.

**SAGITTARIUS** (Nov. 22-Dec. 21): Your friendly demeanor and candid way of presenting what you like and how you live will attract attention. However, be forewarned that someone drawn to you may not share your likes and may try to control and put restrictions on you.

**CAPRICORN** (Dec. 22-Jan. 19): Fewer demands and a little less persistence will help you attract a higher quality partner. Look within your professional circle for someone who understands your work ethic and can adjust to your lifestyle with ease. Look for equality.

**AQUARIUS** (Jan. 20-Feb. 18): You will attract the same type of partner you have in the past if you jump into a relationship too fast. Deal with your emotional baggage before getting involved with someone new. Don't get bullied into making a commitment.

**PISCES** (Feb. 19-March 20): You'll be attracted to someone because of what's being offered. Before you commit to a relationship based on possessions, finances or status, make sure you know what you are getting and that it will be enough to hold your interest.
